

## The Tornado Nature

---

By Thomas P. Grazulis

University of Oklahoma Press. Paperback. Book Condition: New. Paperback. 348 pages. Dimensions: 9.0in. x 5.7in. x 0.8in. Tornadoes occur in every state in the Union, and each region of the nation has its unique tornado season. The most intense tornadoes can carry automobiles a half-mile and level a well built home. Some tornadoes have crossed mountains, seemingly unimpeded. Some have lasted more than an hour, scouring the earth with wind speeds of 250 miles per hour. Nor are tornadoes unique to the United States. In Bangladesh, for example, they have killed a thousand people in a single swath. Filled with dramatic accounts of tornado touchdowns, this book addresses the whirlwind of questions surrounding the phenomenon of the tornado. How often does a tornado hit a particular location How fast are the winds Do tornadoes really seek out trailer parks Can they actually defeather a chicken How many tornadoes hit the United States every year How big can tornadoes grow Thomas P. Grazulis, a tornado research meteorologist and founder of the Tornado Project, has been a consultant for television specials, including Cyclone (National Geographic), Target Tornado (The Weather Channel), Forces of Nature (CBS), and others, helping provide answers to these questions for the...

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Ally Reichel

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*

-- Prof. Kirk Cruickshank DDS
