Brand New Book ***** Print on Demand *****.The book is dedicated to the real life issues in the process of human migration. It discusses people movement that is tied to immigration and trade policy, where workers are treated as a commodity and is not just about selling a product or a service. It is about finding the future. It explores the future of the workers, the corporations and the society at large. The primary objective however is in finding the future. Not just a future in general, but specific futures for the individuals under the care of policies that govern people movement. Where when one side of the coin gets tainted, the other side shines brightly, putting the society at large in a conundrum. This book examines the function of social inequality in a modern world of high-tech guest workers and India s increasing dependence on exporting people to the labor...
