Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.When it comes to money, you really can't take things one day at a time. You must look ahead to the future, and set financial goals, and then create a plan to reach those goals. Once that is done, you start meeting those goals - one day and one step at a time. Don't make the mistake of thinking that you will cross that bridge when you get to it. When it comes to money, you simply cannot do that, or you will find that you will never reach your goals. You must look ahead and see where those bridges are, and start working out how you will cross them long before you get to them! When you finish your education and go to work, you must look ahead to when you will marry. When you marry, you must look ahead to when you will buy a home and have children. You must look ahead to your child's education and their wedding, and you must look ahead to your own retirement - even if it is fifty years away! All of this takes money, and it is money that you need to start gathering right away, not on the day that you need it.
