

Preventing Fire Fighter Fatalities Due to Heart Attacks and Other Sudden Cardiovascular Events (Paperback)

By Department of Health and Human Services: Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health (NIOSH)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The National Institute for Occupational Safety and Health (NIOSH) requests assistance in preventing on-duty cardiovascular deaths among U.S. fire fighters. To reduce these deaths, NIOSH recommends that fire departments and fire fighters follow established medical screening guidelines, adopt risk reduction measures during fire fighting operations, and develop and participate in comprehensive wellness/fitness programs. To bring the information and recommendations in this Alert to the attention of the fire service community, NIOSH requests help from the following individuals and organizations: fire commissioners, fire chiefs, State and local fire district administrators, State fire marshals, safety and health officials, health care providers (physicians, nurses, etc.), human resource specialists, unions, labor organizations, insurance companies and editors of trade journals and other publications.
